

I cannot beleive we are still using a 40 year old rule that was a buddy deal. This whole age 60 is AGE DISCRIMINATION nothing to do with medical. Pilots get medical check every 6 months. Check rides every 6 months and the FAA can give them a check ride any time. You people need to grow up. Senate & Congress can work till there 80s Your Dr. can work till he dies. When we have another pilot shortage in this country you are going to have Airliners flown by one pilot. In the 50 & 60 we had 3 man crew Airplanes the less experience was in the no-flying position now he will be trying to fly the airplane leaving only one person with experience flying in the cockpit. Most of the free world has already got rite of the age 60 rule. GROW UP DO THE RIGHT THING DO AWAY WITH AGE DISCRIMINATION
